Continue practicing using the pen tool by outlining more unique shapes.

Directions:

 - o After it opens, right-click the photo & select “*Save picture as...*”
 - o Save this file into your “Visual Communications” folder.

- Open this file in Photoshop.
- Create custom vector shapes by outlining the 4 shapes with the pen tool.
(You will be graded on how close your shape is to the original. The less path points, the better!)
 - o I would suggest zooming in on 1 shape at a time.
 - o FYI—These shapes do not have any hints on how they were made. You will have to figure out how to make them yourself. HEY-O!!!
