

Selective Color Project

Assignment Description:

This project puts multiple skills to use: Curves/Levels, Hue/Saturation, and Layer Masks.

Directions:

- ***For this project, I want you to take your own pictures. Use a normal camera, or use your phone's camera (or borrow one from a friend if needed).***
- Choose 2 pictures to create a series of Selective Color images:
 - ★ Both pictures need to have the same subject matter (ex. Flowers, shoes, sports, people, clothes, toys, beach, music...)
 - ★ Each picture should be taken from a different angle or in a different setting so that they're not the same. Example:

*Same subject matter (flowers),
but different pictures.*

- Crop both photos:
 - 250 dpi
 - 8x10 inches
- Turn both photos to high-contrast B&W.
- Use layer masks to create selective color photos. *See examples below:*

Save your assignment:

- Format: **TIFF**
- H:/Drive → Visual Communications → Assignments/Projects →
- Save them as:

19 Selective Color Project 1 – Arlene P

19 Selective Color Project 2 – Arlene P

*(**obviously change the “Arlene P” to YOUR first name & last letter**)*
